Work Experience

Software Developer (Intern)
Aug 2016 - Feb 2017 | Madrid
SENER Ingeniería y Sistemas

Designed and developed Foran Customer Help Desk, a web app for managing client details and software licenses for different versions of Foran CAD/CAM application. Achieved an intuitive user centred design and minimalist UI which reduced time to action by up to 30%. Managed the front end development of the application.

Web Developer
May 2014 - Feb 2015 | Bangalore
Faaby Labs

Contributed in development and implementation of Faaby, a product rating application for electronic devices to ease decision making process before buying a product. Developed the algorithm for rating the products based on its characteristics.

Previous Experience

Intern at SRS Web Solutions, designing UI for web and mobile app s and simplifying client online experience; 8 weeks in 2015.

Served as Web Master of IEEE SB in 2014.

Education

Master of Software Engineering
2015 - 2017
Polytechnic University of Madrid, Spain

Bachelor of Computer Science and Engineering
2010 - 2014
St. Xavier's Catholic College of Engineering, India

Skills
